Sliding & Folding  
Collection

  
**Hettich**

The company's origins date back to 1888, when Karl Hettich began making the new clock component he had invented. By 1930, his descendants had diversified into furniture fittings, setting up production in East Westphalia – a center of the German furniture industry. Today, Hettich, still family owned, has become an industry leader with a worldwide reputation. We're one of the world's largest manufacturers of high-quality furniture fittings, with presence in more than 100 countries.

The company's success has been built on four enduring values: quality, innovation, close cooperation with customers and absolute reliability. We work to inspire our customers with our ideas and our passion.

## Doors that fold and slide

Hettich offers a wide range of innovative hardware systems for these alternatives. Various folding and sliding door systems with different runner types permit solutions for all furniture segments. Conveniently moving door elements in all sizes and materials. The optional Silent System provides cushioned closure.

Hettich gets things moving. Easys for sliding door even opens large, heavy doors with effortless ease, providing the last word in convenience. A gentle push is all it takes to activate the electromechanical opening system without the need to overcome any resistance. The user is in control at any stage of the opening cycle. The Silent System provides quiet, cushioned closure.

Hettich fittings for top-running sliding doors create elegant frontage solutions. In the bedroom and living-room, sliding doors make the most of storage space. Unobstructed access, doors do not intrude into the room when they are open. Moving easily and quietly, doors close gently with Silent System.

Folding door solutions from Hettich provide a wide range of interesting design options. Freely moving, cabinet- hugging or guided systems offer a choice of solutions for optimising the folding door application. Year in, year out, these fittings easily and reliably move door elements in practically any size, material and weight.

### 1. SlideLine M:

- ▶ SlideLine M provides the capability of combining open and closed sections in furniture.
- ▶ The 1-track, close fitting sliding door system functions as a practical design element on living-room wall units, shelf systems, kitchen wall units and bathroom furniture.
- ▶ Only one profile can be used for running two doors fitted one above the other.
- ▶ Optional soft-close Silent System is integrated to leave it hidden out of view and the activation point can be positioned wherever chosen.

### 2. SlideLine 66:

- ▶ As a single-track sliding door system, SlideLine 66 is the perfect design element for creating bookcases and shelf systems.
- ▶ Weighing a maximum of 10 kg each, the aluminium, wooden or glass doors hug the cabinet carcass, with two doors being able to run one in front of the other.

### 3. ArciTech drawer:

- ▶ The versatile platform concept permits customised solutions – while keeping production lean and efficient on the basis of one side panel.
- ▶ Capacity to carry loads of 40, 60 and even 80 kg – even enough strength for large, heavy front panels.
- ▶ The Actro runner with its unique prism principle and synchronised control mechanism even brings secure, quiet action to heavy drawers.

### 1. Horizon Synchro:

- ▶ The Horizon Synchro single-track sliding door system simultaneously moves two cabinet doors weighing up to 20 kg each
- ▶ The doors run in an aluminium profile mounted in the carcass
- ▶ The mechanism synchronising the doors is concealed inside this profile

### 2. Quadro Runner for wooden drawer:

- ▶ Drawer runners Quadro guarantee the ultimate in drawer convenience. With attractive design from concealed installation. With a long life and unceasing top performance.
- ▶ The robust, resilient tracks provide the steel balls with optimum control – for perfect vertical and lateral stability.
- ▶ Optional Silent System soft-closing gently shuts drawers in complete silence. The Push to open function automatically opens the drawer in response to a light press on the front – for handleless fronts.

### 3. Sekura 8: glass shelf support

- ▶ Shelf supports can do more than just support shelves: for example, they prevent shelved from being accidentally lifted or pulled forward and from tipping or slipping.
- ▶ A minor detail that can prevent a major disaster from happening.
- ▶ This is where you will find the right supports and holders for any fitted cupboard. Firm and secure support elements for your shelf. And a reliable and easy-to-fit solution for any design of furniture.
- ▶ Pin diameter 5 mm
- ▶ Zinc die-cast nickel-plated / plastic transparent
- ▶ Can be used in system 32
- ▶ Load group L 75 (75 kg / m<sup>2</sup>)

Entertainment Units

## Family Lounge

### 1. Vertico Synchro:

- ▶ The VerticoSynchro singletrack sliding door system simultaneously moves two doors weighing up to 15 kg each.
- ▶ The doors run in an inset or overlay aluminium profile.
- ▶ The synchronising mechanism is pre-mounted in this profile.

### 2. SlideLine M:

- ▶ SlideLine M provides the capability of combining open and closed sections in furniture.
- ▶ The 1-track, close fitting sliding door system functions as a practical design element on living-room wall units, shelf systems, kitchen wall units and bathroom furniture.

Powder Room

#### 1. WingLine 780:

- ▶ WingLine 780 folding door system manages with a simple design of carcass.
- ▶ Fitting it is very easy.
- ▶ Most practical: To fit shelves, the door panel detaches from the running element and simply folds back.
- ▶ Can be used for doors up to 10 kg each.

#### 2. InnoTech powder coated steel–Silver with DesignSide:

- ▶ The versatile InnoTech drawer system makes it very easy to meet specific needs and also specific design theme.
- ▶ One can carry interior design elements, material & color concept through to cabinet and drawer interiors.
- ▶ Tool less assembly & disassembly
- ▶ Perfect drawer action with quadro partial or full extension: optionally with silent system.

## Dressing Lounge

### 1. SlideLine M:

- ▶ SlideLine M provides the capability of combining open and closed sections in furniture.
- ▶ The 1-track, close fitting sliding door system functions as a practical design element on living-room wall units, shelf systems, kitchen wall units and bathroom furniture.
- ▶ Only one profile can be used for running two doors fitted one above the other.
- ▶ Optional soft-close Silent System is integrated to leave it hidden out of view and the activation point can be positioned wherever chosen.

### 2. TopLine L:

- ▶ Benefiting from superior technology, TopLine L impressively demonstrates all the benefits of sliding doors.
- ▶ Huge design flexibility and ease of installation are valuable advantages as early as the development phase.
- ▶ TopLine L is shown to be a particularly convenient and user-friendly system in practice.
- ▶ TopLine L brings beautifully quiet and gentle running action to sliding doors weighing up to 50 kg.
- ▶ Combining it with the Silent System Flexible 50 and 80 soft-closing systems provides added convenience. This way, even heavy doors close with a mere whisper.

### 1. Grant 1260:

- ▶ A heavy duty folding door system for 1" minimum doors up to 175 lbs/door (80 kg/door).
- ▶ Precision ball-bearing wheels for quiet, effortless operation
- ▶ Conforms to ANSI/BHMA standards
- ▶ Accepts full size jamb doors

### 2. Shelf System Amari 200:

- ▶ With its linear, square profile, the Amari 200 shelf system combines design and functionality. Specially developed adapters for the Quadro drawer runners from Hettich permit the use of pull-outs in Amari 200.
- ▶ Two depths for wall mounting, the fact that aluminium profiles can be shortened and the variety of possible constructions permit an endless variety of combinations.

### 3. LED Wardrobe Tube:

- ▶ Lighted Wardrobe rail with integrated LED technology and movement (PIR) Sensor switch
- ▶ The PIR sensor switch switches off 30 seconds after last moment has been detected
- ▶ The light stays switched on as long as there is any movement detected

Walk in Dressing Closet

Kitchen Storage

### 1. WingLine 770:

- ▶ The perfect synthesis of high loading capacity, attractive design and fast installation.
- ▶ The folding door system simply hooks into the runner profile with guide rollers keeping it place.
- ▶ Quality that's felt in every movement.
- ▶ Designed for doors weighing up to 20 kg.

### 2. WingLine 780:

- ▶ WingLine 780 folding door system manages with a simple design of carcass.
- ▶ Fitting it is very easy.
- ▶ Most practical: To fit shelves, the door panel detaches from the running element and simply folds back.
- ▶ Can be used for doors up to 10 kg each.

### 3. LED Lucky Lite:

- ▶ Suitable for use throughout the home
- ▶ Surface mounted light, with aluminum look.
- ▶ Light operated by motion detector
- ▶ Powered by rechargeable or normal batteries.

## Family Kitchen

### 1. SlideLine M:

- ▶ SlideLine M provides the capability of combining open and closed sections in furniture.
- ▶ The 1-track, close fitting sliding door system functions as a practical design element on living-room wall units, shelf systems, kitchen wall units and bathroom furniture.
- ▶ Only one profile can be used for running two doors fitted one above the other.
- ▶ Optional soft-close Silent System is integrated to leave it hidden out of view and the activation point can be positioned wherever chosen.

### 2. InLine XL:

- ▶ The first sliding door system that manages without any handle at all. For the last word in design flexibility.
- ▶ InLine XL lets you create flush fitting unit fronts with the luxurious feel of premium convenience quality: opening in response to a gentle pull on the door's leading edge.
- ▶ Incredibly smooth running action.
- ▶ Soft closing just the way you want it. Doors opening flush with each other.

### 1. WingLine 770:

- ▶ The perfect synthesis of high loading capacity, attractive design and fast installation.
- ▶ The folding door system simply hooks into the runner profile with guide rollers keeping it place.
- ▶ Quality that's felt in every movement.
- ▶ Designed for doors weighing up to 20 kg.

### 2. Seveso:

- ▶ Aluminium Profile handle
- ▶ Length 2400 mm
- ▶ Height 38 mm
- ▶ For 17 & 19 mm thickness

### 3. InnoTech powder coated steel-Silver:

- ▶ The versatile InnoTech drawer system makes it very easy for you because the platform concept is incredible versatile also in terms of design.
- ▶ For instance, you can carry a kitchen's material and colour concept through to cabinet and drawer interiors.
- ▶ Drawers are given additional storage space, personally tailored convenience and clever function.
- ▶ Quick insertion & removal of the drawer.
- ▶ Perfect drawer action with quadro partial of full extension: optionally with silent system.

Pantry Units

## Show Kitchen

### 1. SlideLine 66:

- ▶ As a single-track sliding door system, SlideLine 66 is the perfect design element for creating bookcases and shelf systems.
- ▶ Weighing a maximum of 10 kg each, the aluminium, wooden or glass doors hug the cabinet carcass, with two doors being able to run one in front of the other.

### 2. SlideLine 56:

- ▶ SlideLine 56 is suitable for max. door weights of 40 kg with runner / guide profile in aluminium. It has been designed for doors measuring up to 2000 mm in height and 1000 mm in width.
- ▶ The runner and guide profiles in aluminium provide a stable hold and high practical convenience.
- ▶ Easy to install, the system is robust and uncomplicated in continuous, everyday use.
- ▶ By way of option, the system can be fitted with adaptive Silent System soft-closing.

1

Bachelor's Kitchen

### 1. WingLine 230:

- ▶ WingLine 230 is the giant among folding-door systems: surface areas in excess of 6 m<sup>2</sup> are swept open in a single movement.
- ▶ As an agile room divider. Or for a walk-in cabinet in living areas that can be opened and closed with a turn of the hand.
- ▶ WingLine 230 has exactly what it takes, supporting doors with a door weight of 20 – 25 kg.
- ▶ Sturdy: side-mounting with Sensys 8645i fast-assembly concealed hinge. No centre panels or bottom guide necessary

### 1. TopLine XL:

- ▶ Specialising in heavy doors: the top-running TopLine XL sliding door system is designed for doors weighing up to 80 kg.
- ▶ Outstanding running action: even large, heavy doors run smoothly and quietly with TopLine XL.
- ▶ With Silent System soft-closing, they gently shut without a murmur.
- ▶ The system's first-class, long-lasting quality is sure to delight even the most discerning of users.

### 2. Systema Top 2000

- ▶ **Pencil tray:** every pen is instantly at hand.
- ▶ For concealed installation of runners.
- ▶ Tool less slide on assembly.

### 3. Systema Top 2000:

- ▶ Systema Top 2000 restores order to every office pedestal. Its handy modular system includes numerous functional elements, colours, sizes and equipment versions.
- ▶ Systema Top 2000 range is the benchmark for well organised, modern office pedestals. It has now been improved in all respects by Hettich. And all with the wealth of experience of the leading system supplier in the market.
- ▶ The comprehensive modular system leaves nothing to be desired in the office.

Office Den

Corner Unit

### 1. Horizon Plus:

- ▶ The HorizonPlus swivel fitting lifts the cabinet door horizontally out of the flush front and swings it to the side.
- ▶ This function lends itself in particular to multiple-element cabinets where open doors are left positioned in front of adjacent carcass segments. Depending on cabinet design, HorizonPlus can be used on single or double doors as well as on corner units.

### 2. TopLine 22:

- ▶ Classic system for heavy cabinet doors weighing up to 50 kg
- ▶ This sliding door system is ideal for units with doors in widths of 500 mm and over, e.g. in bedrooms.
- ▶ With four different guide systems to choose from, the plinth zone can be matched to virtually any furniture design.
- ▶ Special running components make the system suitable for use on framed doors.

### 3. Shoe rack:

- ▶ For direct attachment to the wall or inside the wardrobe
- ▶ Chrome-plated steel
- ▶ Adapter: plastic, aluminium effect

### 1. TopLine 1230

- ▶ For doors 1" and up weighing up to 325 lbs/door (147 kg/door)
- ▶ Precision ball-bearing wheels guarantee a smooth, quiet and effortless operation
- ▶ Four wheel carrier, center hung for efficient operation
- ▶ Vertical adjustment  $\pm \frac{1}{4}"$  (6.4 mm)
- ▶ Heavy duty aluminum I-beam track; jump proof design
- ▶ Conforms to ANSI/BHMA standards, Grade 1

### 2. Systema Top 2000

- ▶ **Pencil tray:** every pen is instantly at hand.
- ▶ For concealed installation of runners.
- ▶ Tool less slide on assembly.

Study Lounge

## Wardrobe with Entertainment Center

### 1. TopLine XL:

- ▶ Specialising in heavy doors: the top-running TopLine XL sliding door system is designed for doors weighing up to 80 kg.
- ▶ Outstanding running action: even large, heavy doors run smoothly and quietly with TopLine XL.
- ▶ With Silent System soft-closing, they gently shut without a murmur.
- ▶ The system's first-class, long-lasting quality is sure to delight even the most discerning of users.
